

Dave Walters

Well here it is my bio short but sweet:

After Graduation:

1967 moved to Broken Arrow Okla., went to Okla. School of Business, then into the Army. While in Okla. worked for a company called Ebsco Spring Mfg as a machinist while partying at school.

In 1970's moved to Traverse City, Mi., then put ad in paper and started working for a mfg of fishing equipment call Big Jon Inc. a year later I went to work for a company called Michigan Paper Products. I worked for this company until I started my retirement in 2004 and retired in 2009. I was their accountant/manager for 35 yrs.

In 1981 I married my wife Karen and we have one son who has been in the Air Force for 14yrs with our Daughter in Law also in the Air Force and they have produce us two grandsons David III who will be 10 in May and Michael who just turned 7 in Jan. and I am pretty sure I didn't have as much energy at their age and sure don't t now.

To keep myself busy during and before retirement I have a hobby of restoring cars, I am in the process of restoring a 1970 Datsun Roadster and 1951 Mg-td at the moment. Our son and I restored a 1974 Saab Sonnet his junior year of school and have two more for the grandsons to restore. Still trying to master the game of golf and bowling.

I have been fortunate to keep in touch with my friend and classmate Paul Phillips during the Barrett Jackson Car show in Jan for the last few years. We also this year completed a restoration on Paul's 1947 Indian Motorcycle and may I say looks great.

Looking forward to reunion to catch up with classmates.
